NEW DATES

COURSE PRESENTATION

The developing knowledge about Parkinson's disease (PD), combined with improvements in medical intervention and rehabilitation techniques, offer new hope to patients suffering from PD.

There is increasing scientific evidence that physical exercise associated with medication brings functional benefits to Parkinson's patients, making it an effective way to improve functional capacity in these patients. When structuring a rehabilitation protocol for a Parkinson's patient, it is essential to know the problems that may arise on a physical, cognitive and emotional level in order to achieve the desired goals with the introduction of physical exercise.

This course will allow the participants to know the clinical aspects of Parkinson's Disease (PD), guidelines for intervention in rehabilitation and exercise prescription in individuals with PD. The course is focused on what is known about PD and where researches are going. In addition, it will approach the disease from a functional perspective in order to understand what limitations 1) can be restored and for how long; 2) require immediate compensatory strategies or interventions; 3) require referral to different health professionals.

LEARNING OBJECTIVES >> KNOWLEDGE AND SKILLS TO DEVELOP

- 1 To deepen knowledge about the clinical aspects of PD.
- 2 To acquire knowledge about the most recent guidelines in the diagnosis and therapeutic management of PD.
- 3 To describe the emerging role of technology in PD rehabilitation.
- 4 To understand the interaction of cognition in motor function and in the rehabilitation of PD.
- 5 To identify relevant evaluation instruments to evaluate the functional problems of PD users.
- 6 To design intervention programs appropriate to the different needs of a patient with PD.
- 7 To analyse the scientific evidence on the evaluation and functional outcomes of Parkinson's patients and integrate the results into clinical decision making.

TARGET AUDIENCE

All health professionals working in the area of neurorehabilitation.

ADMISSION CRITERIA

>> Curriculum vitae including certificate of academic qualifications or professional certificate, a proof of professional practice in the area of neurorehabilitation and a letter of motivation for the theme of the course.

ATTENDANCE REQUIREMENTS

100% attendance is mandatory for issuing attendance certificate and CME credits and/or ECTS

NEUROREHABILITATION / PARKINSON'S DISEASE

20-I14

AGENDA

2020 / SEPTEMBER

SEP 18TH

4:00 pm - 8:00 pm

@ Escola superior de Saúde de Alcoitão

- >> Clinical Manifestations of PD
- >> Natural history of the disease
- >> PD vs Atypical Parkinsonism
- >> Pharmacological treatment of PD

SEP 25TH

4:00 pm - 8:00 pm

@ Escola superior de Saúde de Alcoitão

- >> Evaluation process in PD
- >> Functional evaluation in PD
- >> Practical session
- >> Clinical case discussion

OCT 2ND

4:00 pm - 8:00 pm

@ Escola superior de Saúde de Alcoitão

- >> Out-of-the-box interventions
Practical session
- >> Technical assistance at PD
- >> Home-based interventions
- >> The emerging role of technology in PD
Rehabilitation
- >> Research in Rehabilitation

SEP 19TH

9:00 am - 1:00 pm

@ Escola superior de Saúde de Alcoitão

- >> The key areas in PD Physiotherapy
- >> The key areas of Occupational Therapy in PD
- >> The key areas of nutrition in PD
- >> The Key areas of neuropsychology in PD
- >> The Key Areas of Speech Therapy in PD

SEP 26TH

9:00 am - 1:00 pm

@ Escola superior de Saúde de Alcoitão

- >> Clinical cases
- >> Intervention of Physical Therapy
- >> Intervention of Occupational Therapy
- >> Intervention of Speech Therapy
- >> Intervention of Neuropsychology

OCT 3RD

9:00 am - 1:00 pm

@ Escola superior de Saúde de Alcoitão

- >> Presentation of clinical cases
and group discussion

FACULTY

- >> Joaquim Ferreira, MD, PhD
- >> Daniela Guerreiro, PT
- >> Diana Miranda, Nutritionist MSc
- >> Rafaela Dias, OT
- >> Raquel Bouça, PT MSc
- >> Rita Cardoso, ST, MSc
- >> Vanda Freitas, Neuropsychologist MSc
- >> Verónica Caniça, PT

CREDITS >> 3 ECTS

DURATION >> 24 HOURS

This event is compliant with the MedTech Europe Code of Ethical Business Practice

PRICE >> 950€

INCLUSIONS AND EXCLUSIONS IN PRICE

The price published for each course includes teaching fees, space rental, certificate of attendance, and materials used during the course. The price of the course doesn't include hotel accommodation, lunches, and dinners on course days, nor any other items unless specifically mentioned. Prices of courses published by AHED are exempted of VAT. Other items priced by AHED apart from courses may however include VAT.

APPLICATION, ADMISSION AND REGISTRATION

When applying for a course at AHED – Advanced Health Education, the applicant subjects personal and professional data that will be verified and assessed to check that admission criteria for that specific program are met. Once an application is approved, registration in the course is admitted and will require payment of the price published for the course.

APPLICATION FEES

Application fees are as follows:

- 100 € for courses priced above 1000 €
 - 50 € for courses priced below equal to 1000 €
- Application fees are non-refundable.

COURSE REGISTRATION FEES

The registration stage is considered completed when the total price of the course is received by AHED.

PAYMENT OPTIONS

Payment options for application and registration include credit card (Visa, MasterCard), wire transfer in Euro, and Multibanco.
